

*Rigorous and Responsive*

## Press Release For Immediate Release

### **Bracken Engineering Listed on the 2012 Inc. 500|5000 List** Structural Engineering Consultants one of Fastest Growing Companies in Nation

TAMPA, Fla., Sept. 19, 2012 -- *Inc.* magazine ranked **Bracken Engineering** on its sixth annual Inc. 500|5000, an exclusive ranking of the nation's fastest-growing private companies. The list represents the most comprehensive look at the most important segment of the economy -- America's independent entrepreneurs.

"This designation is an honor and one that reflects our ongoing leadership in the rapidly expanding Engineering services sector. Such a distinction would not have been possible without the hard work of our incredible, innovative staff and the support of our loyal clients," says William Bracken, President & CEO.

Complete results of the Inc. 5000, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found at [www.inc.com/5000](http://www.inc.com/5000).

"Now, more than ever, we depend on Inc. 500/5000 companies to spur innovation, provide jobs, and drive the economy forward. Growth companies, not large corporations, are where the action is," says Inc. Editor Eric Schurenberg.

#### **About Bracken Engineering**

Bracken Engineering provides a broad range of consulting solutions with expertise ranging from forensic, geotechnical and structural engineering, to construction and disaster support. Their team of experts work with a wide range of property types, including commercial, residential, municipal, industrial and agricultural.

They address Building Code, public safety, cost and risk management issues for insurance, legal, construction and the real estate industries. Bracken Engineering is a long standing member of the Florida Structural Engineering Association, the Florida Association of Sinkhole Stabilization Specialists, and more than 20 other professional associations.
